SUMMARY

Passionate Android developer and Computer Science student at Strathmore University with hands-on experience building polished, privacy-first mobile applications. Creator of PocketPal — a fully offline personal finance app — and Milestone, a goal-tracking platform. Skilled in Kotlin, React Native, and Java with a strong eye for UI/UX design. Actively seeking opportunities to contribute innovative mobile solutions as a developer, intern, or freelance collaborator.

FEATURED PROJECTS

PocketPal — Personal Finance App *2024 – Present*

React Native · Android Studio Offline / Android

- Designed and built a fully offline personal finance tracker with device-centric security — no data ever leaves the user's device.
- Built core features including total balance overview, Mpesa wallet integration display, visual spending insights with timeline charts, and a light/dark theme toggle.
- Prioritized user privacy with masked balance fields and a polished modern dark UI; published as a standalone Android application.

Milestone — Goal & Progress Tracker *2025 – Present*

React Native · Android Studio Offline / Android

- Built a goal-tracking app enabling users to set targets (e.g. marathon training, writing a novel, skill development) and log progress with daily dedication streaks.
- Implemented streak logging, milestone creation, and a full progress journal for visualizing long-term achievement.
- Designed a clean dashboard with active goal cards, fire-streak counters, and progress bars — entirely offline with no backend dependency.

EXPERIENCE

Intern · Sable International *Jun 2023 – May 2024*

Kampala, Uganda

- Gained professional workplace experience in an international environment, developing strong communication skills with national and international clients.
- Collaborated within cross-functional teams, building foundational skills in project coordination and professional conduct.

Member, Academic Sub-Committee · Strathmore University Student Council *Sep 2025 – Present*

Nairobi, Kenya

- Contributing to academic policy discussions and student welfare initiatives within the university governance structure.

IEEE Societies Office · IEEE Strathmore University Student Branch *Sep 2025 – Present*

Nairobi, Kenya

- Engaged with the global IEEE engineering community, participating in technology-focused events and fostering innovation among peers.

EDUCATION

BSc. Informatics & Computer Science · Strathmore University *2024 – 2028*

Nairobi, Kenya

- Focus: Android Development, Networking, Software Systems

High School Diploma · Vienna College Namugongo *Nov 2017 – May 2023*
Kampala, Uganda

SKILLS

Mobile Development: Android Studio, Kotlin, React Native, Java
Languages: Kotlin, Java, Python, JavaScript
UI/UX Design: Figma, Material Design, Dark/Light theming, Responsive layouts
Tools & Platforms: Git, GitHub, VS Code, Android SDK, Offline-first architecture
Networking: Cisco CCNA (Cyber Ops), TCP/IP, Network Security
Soft Skills: Design Thinking, System Optimization, Technical Writing, Cross-cultural Communication

CERTIFICATIONS

- Cisco CCNA — Cyber Ops
- Power The Community 2025
- InfraVision 2025
